

Shayla Reid

(301) 509-4456 | lunareid15@gmail.com

Skills

Technical

- AutoCAD (very proficient)
- Programming Languages:
 - Python
 - MATLAB
 - R
 - Mathematica
 - C++
- MS Office
- Data Analysis
- Testing and Evaluation
- Simulation and Modeling
- Experimental Design
- Computational Modeling
- GitHub Version Control

Professional

- Collaboration and Team Building
- Effective Communication
- Committed to Continuous Learning
- Driven to Achieve Results

Experience

Undergraduate Research Intern

06/2025 to PRESENT

Cornell Virtual Embodiment Lab

Ithaca, NY

- Conducted research on VR personalization methods to enhance user presence and realism, analyzing interaction data with Python and R to support lab publications.
- Collaborated with graduate students and faculty to design, prototype, and evaluate experimental frameworks for virtual embodiment, while managing code and experiments via GitHub.
- Co-authored a peer-reviewed research paper in progress, *Invisible Strings: A Social Leading Scenario via Imposed Behavioral Synchrony in Virtual Reality*.

Data Analyst Intern

01/2021 to 07/2023

Howard University Beltsville Campus

Beltsville MD

- Collaborated with an international research team to analyze atmospheric particulate data from La Paz and El Alto, Bolivia, investigating its role in glacier melt and climate impact.
- Co-authored a published research book and findings presented at the American Meteorological Society, contributing to the global understanding of particulate matter's environmental effects using data analysis.
- Co-authored peer-reviewed paper presented at the American Meteorological Society, 2023.

Researcher

08/2022 to 05/2023

Eleanor Roosevelt High School

Greenbelt MD

- Learned effective research techniques, including evaluating credible sources, developing hypotheses, and applying structured research methods.
- Wrote a multi-chapter research paper as the culmination of the program, presenting findings at the school's research symposium.

Education

Bachelor of Science in Mechanical Engineering

Expected in 05/2027

Cornell University (Junior Year)

Ithaca, NY

- Spring 2025 Term GPA 3.226
- Relevant Coursework: Introductory Fluid Mechanics, System Dynamics, Introduction to Aeronautics, Mechanics of Engineering Materials, Introduction to Mechanical Engineering, Multivariable Calculus, Thermodynamics, Statics and Mechanics of Solids, and Differential Equations

Science and Technology Program

05/2023

Eleanor Roosevelt High School

Greenbelt, MD

- Weighted Cumulative GPA: 4.309, Unweighted Cumulative GPA: 4.0
- Relevant Coursework: AP Computer Science Java, Honors Engineering Foundations, AP Calculus AB, Honors Foundations of Technology, AP Physics C, and AP Environmental Science

Extracurricular Activities

American Society of Mechanical Engineers, Member, 04/2025 - PRESENT | National Society of Black Engineers (NSBE), Member, 08/2023 - PRESENT; NSBE Senator, 07/2025 - PRESENT | Cornell Black Students United, Member (BSU), 08/2023 - PRESENT; BSU Secretary, 07/2025 - PRESENT | National Honors Society, Member, 01/2022 - PRESENT

Achievements

- Awarded the VEX Robotics Competition Judges Award Design Award in state competition, 2019
- Science Olympiad team competition in state championship, 2023
- 2nd place in high school math competition, 2023

Engineering Projects

- **Immersive Virtual Conferencing Device** – Contributed to the design of a device that enhances virtual meetings, making platforms like Zoom feel more immersive through mechanical and sensor integration.
- **Tidy Twist** – Developed a portable liquid dispenser to organize and dispense liquids for travelers.
- **VEX Robotics Robot** – Designed and built competition robots for two years in high school capable of placing cubes in towers and stacking cubes in corners by applying mechanical design principles.
